

AQUA SAFE MINE

About Us:

- **AQUA SAFE MINE**
- **AQUA SAFE MINE** is a leading Manufacture, supplier and Exporter of a wide range of WWTP , WTP Turnkey Projects , their chemicals and spares materials.
- We can avail a complete choice of products which include **Waste Water Treatment Plant , Chemicals & spares**. The entire range of products are designed and developed in line with the international standards set by the industry.
- Our products are used in the water treatment of boiler, cooling water, reverse osmosis (RO), closed loop systems, industrial waste-water treatment systems and specialty water treatment formulations. Our programs and services are used in water treatment applications to prevent corrosion, contamination and the buildup of harmful deposits and in production process to enhance process efficiency, extend asset life and quality for our customer.
- We help our customers reduce energy, water and other natural resource consumption minimizing environmental releases while boosting the bottom line. Together, our comprehensive water treatment solutions, contribute to the sustainable development of customer operations. We recognize the need to provide quality water treatment chemical products as well as technical assistance and consultation to enhance water treatment system efficiency.

OUR PRODUCTS RANGE :

- **Waste Water & Water Treatment plants :**

1. Effluent Treatment Plant
2. Sewage Treatment Plant
3. Reverse Osmosis Plant
4. Demineralize plant (DM Plant)
5. Organic Waste Plant
6. Softener System

Water Treatment Chemicals Range:

Water Treatment Chemicals :

For RO Treatment

- ☐ RO Antiscalent
- ☐ RO Membrane cleaner
- ☐ RO Bacteria Removal
- ☐ RO DE chlorination

For Boiler Treatment:

- ☐ Antiscalent
- ☐ Corrosion Inhibitor
- ☐ pH Booster
- ☐ Descalent
- ☐ Oxygen Scavenger
- ☐ Sludge Conditioners

For Cooling Tower Treatment

- ☐ Antiscalent
- ☐ Corrosions inhibitors
- ☐ pH Stabilizers
- ☐ Descalent
- ☐ Biocides -Oxidising
- ☐ Biocides - Non Oxidising
- ☐ Bio Dispersent

Waste Water Treatment Chemicals :

For Coagulation Treatment:

- ☐ Primary Sludge Coagulant
- ☐ Alum Replacement Coagulant
- ☐ Colour remover coagulant

For Flocculants Treatment :

- ☐ Anionic Poly Electrolyte
- ☐ Cationic Poly electrolyte
- ☐ Non-Ionic Poly electrolyte

For Colour remove Chemical

- ☐ Positive Ion Based
- ☐ Negative Ion Based

For Anti-Foaming :

- ☐ Oil Based Deformer
- ☐ Silicon / Water Based Deformer

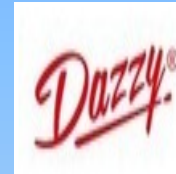

For Biological Treatment

- ☐ Bio-Culture -ASM Starter

Service – For Every Project

- **Research & Development**
- **Project Design & Engineering**
- **Project Execution & Management**
- **Engineering , Procurement & Construction (EPC)**
- **Operation & Maintenance (O&M)**
- **Audit & Optimization**

Our Clients – To Whom We serve

Leveraging the strength of two great companies
